

PRESS RELEASE

Pliosaur Energy Welcomes First Interns

Release Date: 08/07/2026

Pliosaur Energy Limited is excited to announce the launch of its first Internship Programme and to welcome two new interns to the Pliosaur Energy Team.

This programme reflects Pliosaur Energy's commitment to investing in the next generation of professionals who are passionate about renewable energy. Built around the belief that "Our Future is Renewable," the internship provides participants an opportunity to gain valuable experience in a professional environment while contributing to meaningful projects across a range of areas, including marketing, policy, and business development.

The interns will develop practical skills, broaden their industry knowledge, and gain first-hand insight into the renewable energy sector. By investing in emerging talent, Pliosaur Energy is helping to build a skilled workforce needed to support the transition to a more sustainable energy future.

The launch of this programme marks an important milestone for the company as it continues to grow. Over the coming months, the company will also introduce a number of changes aimed at making its activities more accessible, collaborative, and team-led. These developments form part of Pliosaur Energy's wider commitment to innovation, sustainability, and creating opportunities for growth both within the business and across the communities it serves.

Our internship programme is currently closed. Pliosaur Energy looks forward to welcoming future applicants when the programme reopens.
